**BE the CHANGE  
YOU WISH TO SEE  
in THE WORLD** - Gandhi

**START BY CHANGING  
YOUR COMMUTE**

## CHANGE CAN BE GOOD. IT RENEWS. IT RECHARGES.

And there's one simple change you can make that not only improves your life, but can help make the quality of life better for everyone around you:

### SHARE THE RIDE TO WORK.

**TAKE TRANSIT.** Join a **CARPOOL**, or better yet, a **VANPOOL**. When you pool resources you save not just money on gas and tolls, but wear and tear on your car, insurance—and your sanity. You might even gain some extra time—to read, rest or get to know new people.

**WANT TO GET ON BOARD?** The free Share-A-Ride ride-matching program lets you find other commuters who are going the same way, and thinking the same way. You'll also get the most convenient transit options, in addition to finding those people who want to drive together. If you *work* in southeastern Pennsylvania, no matter where you live in the greater Philadelphia area, Share-A-Ride can help you find a better way to get there.

Plus, the Emergency Ride Home (ERH) program helps ease your mind about making the change: when you stop driving alone to work, ERH provides that “safety net” in case you have a personal emergency. If you need to get somewhere critical on days when you don't have a car, ERH provides a car for you. No excuses, no worries. So now it's easier than ever to make a new start.

## COMPANIES CAN MAKE A CHANGE, TOO!

Employers can make a change that will make a difference in their employees' lives. Encouraging a better commute can help employees save money and reduce stress, while helping a company's bottom line, too!

The Mobility Alternatives Program (MAP) is a free service for employers with worksites in southeastern Pennsylvania. Companies and organizations can learn all about the following programs to offer to employees:

- **SHARE-A-RIDE:** match employees who come to the same worksite
- **CARPools and VANPOOLS:** set up your own or work with a third-party provider
- **TRANSIT:** learn what routes serve your site and how you can help employees connect to the larger systems
- **PREFERRED PARKING:** reward employees who pool together with the best spaces
- **TELEWORK:** when employees work from home, they don't even have to commute
- **FLEXTIME AND CONDENSED WORK WEEKS:** ways to add flexibility to employees' schedules and commutes
- **INCENTIVE PROGRAMS:** help cut the costs and make it easier to change (e.g. TransitChek, onsite amenities, coupons, contests, etc.)
- **AIR QUALITY INITIATIVES:** free forecasts and information for your employees

## BE GREEN, BE INNOVATIVE, BE RESPONSIBLE, BE A GOOD NEIGHBOR...

Whatever you want to call it, MAP can help employers make the right choices—and the right changes—for their company, and their employees. Find a MAP contact in your area who can help:
