

**PUBLIC COMMENTS AND QUESTIONS
RELATED TO DVRPC BOARD ACTION ITEMS**

June 23, 2016

Agenda Item:

2a. DVRPC Transportation Improvement Program (TIP) Actions

PA15-90: SEPTA Bus Purchase Program, (MPMS #90512), SEPTA

From: Dennis Winters, Clean Air Council

County: Philadelphia

Zip Code: 19103

Date Received: 6/20/2016

Comment/Question:

The Clean Air Council supports TIP Amendment PA15-90 increasing a cost in SEPTA's Bus Purchase Program (MPMS #90512) and commends the agency on its purchase of Zero Emission (electric) buses for Routes 29 and 79 in south Philadelphia. While SEPTA's diesel hybrid buses marked a clean engine improvement over previous diesel buses, these electric buses represent the carbon-free technology change necessary to avoid catastrophic climate disruption.

Response: Thank you for your comment.

2c. DVRPC Transportation Improvement Program (TIP) Actions

NJ16-042: River LINE Tier 4 Engine Retrofit Project, (DB #T701), NJ TRANSIT

From: Dennis Winters, Clean Air Council

County: Philadelphia

Zip Code: 19103

Date Received: 6/20/2016

Comment/Question:

The Clean Air Council supports the River LINE Tier 4 Engine Retrofit Project. The upgrade in diesel engine technology from Tier 1 to Tier 4 will have a positive impact on regional air quality. The Council further supports the "flex" of \$14 million in FHWA dollars to FTA and use in this case by light rail transit.

Response: Thank you for your comment.

3. Fiscal Year 2016 Planning Work Program Amendment

From: John Boyle

County: Pennsylvania
Zip Code: 19102
Date Received: 6/20/2016

Comment/Question:

Comments of the Bicycle Coalition of Greater Philadelphia - We support counters and better data collection of bicycle and pedestrian traffic.

Response: Thank you for your comment. Your original comment was forwarded to the DVRPC board.

From: Dennis Winters, Clean Air Council
County: Philadelphia
Zip Code: 19103
Date Received: 6/20/2016

Comment/Question:

The Clean Air Council supports the FY2016 Planning Work Program amendment to place and operate three additional bicycle and pedestrian counters on Circuit Trails in Pennsylvania. It is important to count bicycles and pedestrians in order to adequately plan the region's transportation spending.

Response: Thank you for your comment.

4. FY 2017 TCDI Projects

From: John Boyle
County: Burlington
Zip Code: 08010
Date Received: 6/22/2016

Comment/Question:

Personal comment (not BCGP): Route 130 study. The description is not clear. I am also concerned that pedestrian and bicycle travel and safety will not be included in this plan. New development along Route 130 in Willingboro, Edgewater and Delanco has not included sidewalks.

Response: Thank you for your comment. This item was forwarded to the project manager and submitted to the DVRPC Board. There are two plan that include Route 130, both from the Burlington County Department of Economic Development and Regional Planning (EDRP): the River Route Circulation Plan for \$175,000 and the Conceptual Design Plan to Route 130 Intersection for \$100,000. Both plans will be multimodal in nature but we do not have a definitive scope of work. Bike and pedestrian infrastructure will be considered in both of these projects.

From: John Boyle
County: Philadelphia

Zip Code: 19102
Date Received: 6/22/2016

Comment/Question:

The Bicycle Coalition supports all TCDI projects that include planning for bicycle and pedestrian improvements.

Response: Thank you for your comment.

5. Regional Trails Program Grant Awards

Comment/Question:

As a casual bike rider and commuter from Camden County into Gloucester County, I thank you for approving the expenditure of Regional Trail Funds for these segments of Circuit Trails in New Jersey. I support funding the New Jersey Circuit Trails and I ask that these trail segments be added to the NJ TIP. It is important for people to understand the car is not the only mode of transportation in NJ. People should not be afraid to go walk or get on their bike to explore, travel, or exercise.

Response: Thank you for your comment.

Comment/Question:

Thank you for supporting these Circuit Trail Projects. I am particularly in favor of the Cooper River Trail project - making the connection from the Cooper River Park area to the Ben Franklin Bridge is a vital link that needs to be made to enhance bike commuting and recreation between Camden County and Philadelphia via the Ben Franklin Bridge. Thanks again!

Response: Thank you for your comment.

Comment/Question:

Hello! Thank you for approving the expenditure of Regional Trail Funds for these segments of Circuit Trails in New Jersey. I support funding the New Jersey Circuit Trails and I ask that these trail segments be added to the NJ TIP. In particular I'm glad to see the Pub Connector path listed above. That's a small but vitally important part of what is currently a very obfuscated connection between the Cooper River parks east and west. If people are going to use these trails to get from east of Route 130 to Camden/Philadelphia, this connector is an absolute must. Thank you!

Comment/Question:

Trenton wellness loop is a much needed addition to Trenton's built environment. The bike lanes will provide safe passage for the 27% of residents who do not own vehicles. This loop is also good for tourism, connecting the D&R canal and other regional trails. The Trenton community has supported this plan for three years and is anxious to see the plans come to fruition. This added route has the potential to improve the quality of life for many residents who ride that way on a daily basis; increase economic development through increased tourism and create a healthier city; it also directly aligns to the Trenton250 Bike and Pedestrian plan. The Trenton Wellness Loop is a win win for children, adults and families and has the support of the NJ Partnership for Healthy Kids-Trenton and its 40+ partners. Thank you.

I've worked alongside many who are trying to open Gateway and Farnham Parks in Camden. These circuit updates will go a long way in convincing the people in the area that these improvements will actually come to fruition. It's an economic impact as well; giving people ways to get to work on foot or bicycle. The Pub connector is very important for giving access from one side of the park to other parts of the park.

I support and encourage the allocation of funding for the Trenton Wellness Loop. As a resident of Trenton as well as an employee of a non-profit organization on the trail loop, it would be a welcome addition to the City's North Ward. A designated trail would encourage employees to increase activity during their lunch breaks as well as families who reside adjacent to the trail. I support the New Jersey partnership for Healthy Kids-Trenton and this is one of their important projects that will improve the wellness environment in the City of Trenton. Please fund this important project and support the good works of those invested in our capitol city.

Comment/Question:

Thank you to DVRPC staff and county officials who have advanced the progress on these respective trail segments and have prepared them for consideration by the full DVRPC board. It is great to see continued progress in design and construction along New Jersey's Circuit Trails segments. On behalf of the Circuit Trails Coalition, I am hopeful these worthy projects receive board approval on June 23rd. In addition, let us continue advancing these projects to inclusion on the NJ TIP. Thank you again for your consideration. Onward and upward for our great region! --Olivia Glenn, NJ Conservation Foundation and Vice Chair for New Jersey, Circuit Trails Council
