**Comment/Question:** I would like DVRPC and PennDot to consider a design for this portion of Wynnewood Road that includes bike lanes in the shoulders of the roadway. Wynnewood Road provides access to South Ardmore Park, a heavily-used recreational asset, from several neighborhoods of surrounding Lower Merion and Haverford Townships. Further, this portion of Wynnewood Road may be indicated as a priority corridor for installation of bike lanes in DVRPC's US 30 Corridor Study and/or the Montgomery County Bike Plan. Thank you.

**Response:** Thank you for your comment. Your original comment was forwarded to the DVRPC Board, DVRPC's Office of Capital Programs, and PennDOT.

Thank you for your comment. As part of the PennDOT Connects process, the project will include consideration of whether bike lanes can be safely accommodated at this location, in consultation with the Montgomery County Planning Commission, Lower Merion Township, DVRPC, and PennDOT.
