

# HELP US REVIVE VINE STREET.

幫助我們復興  
Vine街。

REVIVING VINE  
dvrpc

## PROJECT VISION STATEMENT

Reviving Vine seeks to increase neighborhood connections by enhancing multimodal, inclusive mobility options in the Vine Street corridor. By improving safety and rebalancing roadway uses, the project will empower residents and visitors to reclaim Vine Street as public space for all users.

## 項目願景陳述

復興Vine的目的是通過強化多種交通方式（包括Vine街廊道的流動性選擇）來提升華埠社區連接。該項目可提升安全性，並對道路使用重新平衡，使居民和遊客將Vine街視為一個面向所有使用者的公共空間。

## PROJECT DESCRIPTION

Reviving Vine will focus on street design improvements to Vine Street local (eastbound and westbound) between 8th Street and Broad Street. Special emphasis will be placed on improvements that can be made in the short or medium term, though long-term improvements will also be considered. The core recommendation is a reallocation of street space that better balances the needs of pedestrians and bicyclists as well as vehicles.

## 項目說明

「復興Vine」項目的重點是第8街與Broad街之間Vine街（東行和西行方向）的街道設計優化。我們特別強調可在短期或中期實現的優化，但也會考慮長遠優化。核心建議是重新分配街道空間，更好地平衡行人、騎行者以及車輛的需求。

# Summary of Project Recommendations 項目建議總結

Turning Movement Changes to Reduce Conflict and Delay  
透過轉向交通變化來減少交通衝突和延誤

Create an Attractive Entrance to Proposed Rail Park  
為擬建鐵路公園建設一個有吸引力的入口

Build Pocket Parks by On-Street Parking  
在沿街停車區域旁修建小型公園

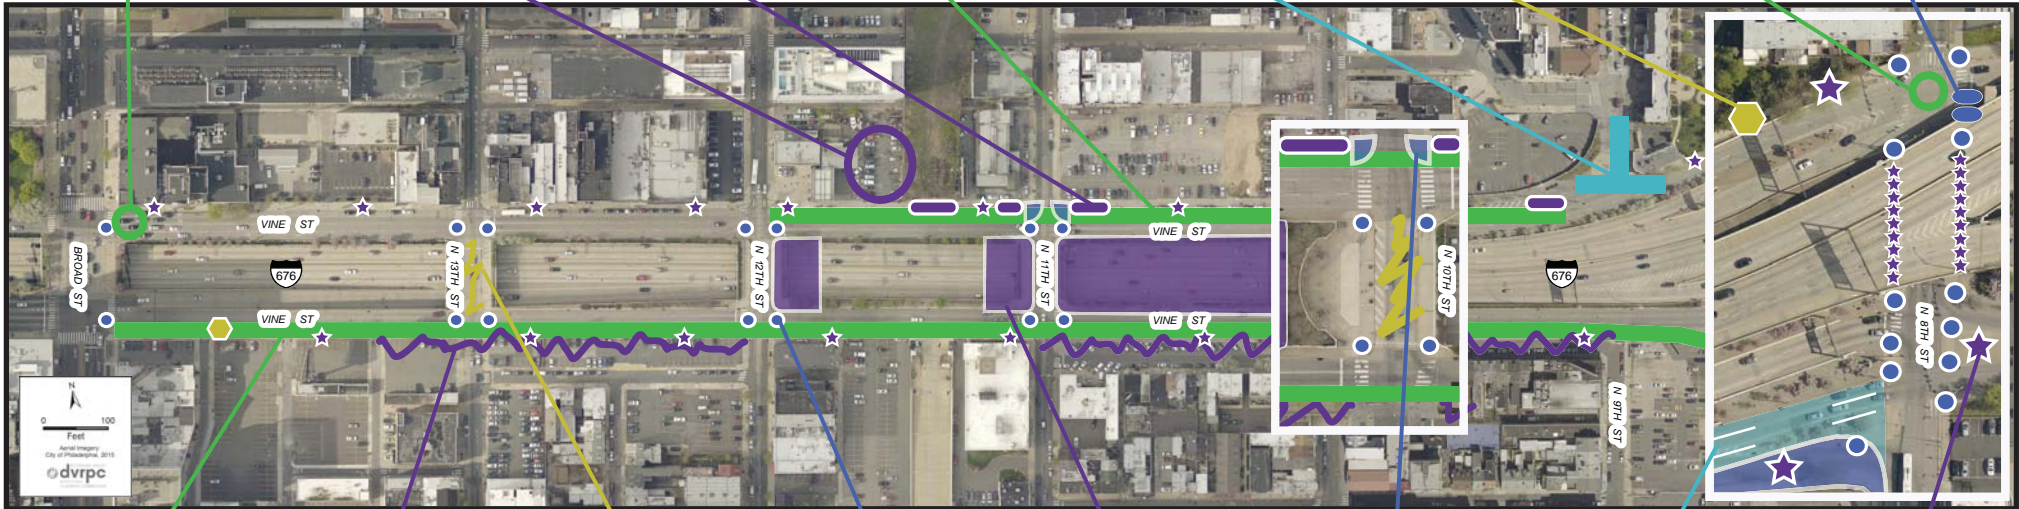

Remove 1 of 3 Travel Lanes and Narrow the Lanes  
移除3個車道中的1個，並使車道變窄

Redesign to a Signalized "T" Intersection  
重新設計一個有信號燈的「T」形路口

Speed Limit Signs  
限速標誌

Increase Westbound Green Time by 2 Seconds  
西行綠燈時間增加2秒

Crosswalks and Pedestrian Islands  
人行橫道和安全島

Remove 1 of 3 Travel Lanes and Narrow the Lanes  
移除3個車道中的1個，並使車道變窄

Replace Wall with Landscaping  
用景觀替代牆體

Improve Bicycle Lane  
優化自行車車道

Install ADA-compliant Ramps  
安裝符合ADA要求的斜坡

Implement Partial Expressway Capping  
對快速幹道實施部分封頂

Install Curb Extensions  
安裝路緣擴充區

Remove 1 of 4 Travel Lanes  
移除4個車道中的1個

Install Pedestrian-Scale Lighting  
安裝行人規格的照明設施
