- 6 Special Program Locations
- 9 Day Cares

Traveled just over 1 million miles last year
Out with the Old
In with the New
Engine Compartment & Location
Fuel Dispenser
Drivers love driving the CNG buses because they have better turning radius, better visibility and the ride is so much quieter and smoother. The students are not talking above the noise of the engine.

Parents love how quiet the bus is except for one mother who used to use the sound of the bus coming down the street behind her as her cue to send her child out to the bus stop. The new buses are so quiet she now has to use a clock.
Purchased 37,505 less Gallons of Diesel in 14/15
Fuel Cost Saving
January Through June of 2015

• Average Diesel Cost per gallon is $2.68
• Average Diesel Gallon Equivalent for CNG is $1.11
• 33,708 Diesel Gallons @ $2.68 = $90,390
• 33,708 CNG Diesel Gallon Equivalent @ $1.11 = $37,546
• Total Savings: $52,844
