

**HIGHWAY-RAILROAD AND HIGHWAY BRIDGE CAPITAL BUDGET ACT FOR
1982-83**

Act of Dec. 8, 1982, P.L. 848, No. 235

Cl. 86

AN ACT

Providing for the adoption of capital projects related to the repair, rehabilitation or replacement of highway bridges to be financed from current revenue or by the incurring of debt and capital projects related to highway and safety improvement projects to be financed from current revenue of the Motor License Fund.

The General Assembly of the Commonwealth of Pennsylvania hereby enacts as follows:

Section 1. Short title.

This act shall be known and may be cited as the "Highway-Railroad and Highway Bridge Capital Budget Act for 1982-1983."

Section 2. Total authorization for bridge projects.

(a) The total authorization for the costs of the projects itemized pursuant to section 3 and to be financed from current revenue or by the incurring of debt shall be \$4,228,748,950.

(b) The authorization for capital projects in the category of Highway Projects to be constructed by the Department of Transportation, its successors or assigns, and to be financed by the incurring of debt or from the Highway-Railroad and Highway Bridge Improvement Restricted Account within the Motor License Fund, itemized in section 3 under the category of State bridges, is \$2,688,281,000.

(c) The authorization for non-State highway bridge projects to be constructed by local government municipalities and to be financed in part with grants not exceeding 80% of the non-Federal share of the costs made to the local government municipalities by the Department of Transportation from revenues deposited in the Highway Bridge Improvement Restricted Account within the Motor License Fund, itemized in section 3 under the category of local bridges, is \$1,540,467,950.

((2) amended Dec. 19, 1990, P.L.1095, No.200)

Section 3. Itemization of bridge projects.

The individual capital projects in the category of highway projects to be constructed by the Department of Transportation, its successors or assigns, and to be financed from current revenue or by the incurring of debt are hereby itemized, together with their estimated financial costs, as follows:

Section 6. Limitation on expenditure of funds.

Any moneys derived from the incurring of debt shall be used solely for effecting the rehabilitation, replacement or removal of bridges located on State highways. All other bridge rehabilitation, replacement or removal shall be financed from current revenue.

Section 7. Debt authorization.

The Governor, Auditor General and State Treasurer are hereby authorized and directed to borrow, from time to time, in addition to any authorization heretofore or hereafter enacted, on the credit of the Commonwealth, subject to the limitations provided in the current capital budget, money not exceeding in the aggregate the sum of \$2,367,222,000 as may be found necessary to carry out the acquisition and construction of the highway projects, specifically itemized in section 3 of this capital budget.

(7 amended July 11, 1989, P.L. , No.56)

Section 8. Issue of bonds.

The indebtedness herein authorized shall be incurred from time to time and shall be evidenced by one or more series of general obligation bonds of the Commonwealth in such aggregate principal amount for each series as the Governor, Auditor General and State Treasurer shall determine, but the latest stated maturity date shall not exceed 30 years from the date of the bond first issued for each such series.

Section 9. Estimated useful life of projects.

The General Assembly states the estimated useful life of the projects heretofore itemized as 30 years.

Section 10. Appropriation.

The net proceeds of the sale of the obligations herein authorized are hereby appropriated from the Capital Facilities Fund to the Pennsylvania Department of Transportation in the maximum amount of \$2,367,222,000 to be used by it exclusively to defray the financial costs of the projects specifically itemized in section 3 of this capital budget. After reserving or paying the expenses of the sale of the obligation, the State Treasurer shall pay out to the Pennsylvania Department of Transportation the moneys as required and certified by it to be legally due and payable.

(10 amended July 11, 1989, P.L. , No.56)

Section 11. Federal funds.

In addition to those funds appropriated in section 10, all moneys received from the Federal Government for the construction of the public improvement projects specifically itemized herein are also hereby appropriated for those projects.

Section 12. Allocation of funds.

(a) Whenever as determined by the Pennsylvania Department of Transportation that the full estimated financial costs of the projects itemized in section 3 are not necessary for the proper design, acquisition, or construction of such projects, the excess funds no longer required may be allocated by the Pennsylvania Department of Transportation to increase the estimated costs of any one or more of the projects specifically itemized in a capital budget.

(b) Moneys raised or expended by municipalities after the effective date of this act, in anticipation of receipt of funds authorized for projects itemized by this act, may be reimbursable to those municipalities.

Section 12.1. Change in scope of work.

The department may increase or decrease the scope of the work on any project itemized in section 3.

(12.1 added Oct. 10, 1984, P.L.793, No.161)
Section 12.2. Reimbursement agreements.

In the interest of the public health, safety and welfare, municipalities may begin and complete design, land acquisition and construction of the capital projects enumerated in section 3, subject to the approval of the Pennsylvania Department of Transportation as to structural adequacy, at their own initial risk and expense. To assure a municipality's entitlement to funds, if any, under this act for these purposes, the Commonwealth, through the Pennsylvania Department of Transportation, will enter into an agreement with a municipality to reimburse the municipality for costs previously incurred in the design, land acquisition and construction of capital projects enumerated in section 3 at such time as funds become available, if at all.

(12.2 added July 9, 1986, P.L.597, No.100)
Section 13. Policy on jobs and materials.

(a) It is the declared policy of the Commonwealth that the construction projects authorized herein be used, to the greatest extent possible, to provide for the creation of jobs and the rehiring of the unemployed in Pennsylvania. In order to reach this goal, firms with Pennsylvania-based facilities shall be actively solicited to make bids on contracts to furnish products and materials, including but not limited to, steel and steel products, to be used in these projects.

(b) Every contract document entered into to undertake a project contained herein shall provide that any steel or other products to be used or supplied in the performance of this contract shall be required to be manufactured by plants in the United States unless the Secretary of Transportation determines, on a contract by contract basis, that certain required products are not produced in the United States in sufficient quantities to meet the requirements of the contract. Such a determination and the reasons therefor shall be published in the Pennsylvania Bulletin. Decisions made under this subsection shall not be inconsistent with the general provisions of the act of March 3, 1978 (P.L.6, No.3), known as the "Steel Products Procurement Act."

Section 14. Payment of capital debt service.

The repayment of any debt incurred pursuant to this act shall be made from the Highway Bridge Improvement Restricted Account within the Motor License Fund and such repayment shall have first claim on the revenues of said restricted account.

Section 15. Definitions.

For purposes of section 3 of this act, the term "capital project" as defined in the act of July 20, 1968 (P.L.550, No.217), known as the "Capital Facilities Debt Enabling Act," shall mean and include county and municipal bridge rehabilitation, replacement or removal projects as set forth herein.

Section 15.1. Demonstration timber bridge program.

(a) The department may select certain State highway or non-State highway bridges enumerated in this act to be constructed with timber in accordance with specifications prepared or approved by the department.

(b) The maximum grant to local government municipalities shall not exceed the percentage set forth in section 2(c).

(c) The sum of \$300,000 is appropriated from the Motor License Fund for use in the demonstration timber bridge program to be applied against the nonlocal government municipality share of a project.

(15.1 added July 11, 1989, P.L. , No.56)

Section 16. Effective date.

This act shall take effect immediately.
