

# ***DELAWARE VALLEY DATA EMPLOYMENT 1970-1997***

*Data Bulletin No.62*

May 1999

DELAWARE VALLEY REGIONAL PLANNING COMMISSION

## **DELAWARE VALLEY REGIONAL EMPLOYMENT BY TYPE AND SECTOR, BY COUNTY, 1970-1997**

This Delaware Valley Data Bulletin provides estimates of the number of employed persons by type and sector for each county in an expanded four-state, twenty-eight county area. These counties include the nine DVRPC member counties as well as the nineteen surrounding counties, that comprise the DVRPC data service area.

Annual estimates are provided for 1970, 1977, 1980, 1987 and every year from 1988-1997. Employment data are tabulated for each of the twenty-eight counties, and totals are provided for the two Delaware counties, the two Maryland counties, the fourteen New Jersey counties, the ten Pennsylvania counties, the nine-county core DVRPC region, the 14-county CMSA region and the 28-county data service region.

The nine-county core DVRPC region consists of five Pennsylvania counties: Bucks, Chester, Delaware, Montgomery and Philadelphia; and four New Jersey counties: Burlington, Camden, Gloucester and Mercer. Summary data is also provided for these five-county and four-county subregions. The 14-county CMSA, consolidated metropolitan statistical area, as defined by the U.S. Office of Management and Budget, includes the following counties: Bucks, Chester, Delaware, Montgomery, Philadelphia, Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester, Salem, Cecil, and New Castle.

Employment data for this bulletin was compiled from estimates derived by the Bureau of Economic Analysis (BEA). The BEA data, which are released yearly, provide an estimate of a full and part-time employment located within a county by type and sector.

Since these yearly tabulations are estimates, they contain data for the most current year as well as revisions to previous releases. The BEA data may be revised for several years following release. Users are cautioned that this data may not agree with previous releases due to retro-adjustment.

In addition to BEA employment data, DVRPC obtains employment statistics from a number of other sources, including the 1990 U.S. Census of Population and Housing (Census); U.S. Department of Commerce (County Business Patterns); Bureau of Labor Statistics (BLS); and Census Transportation Planning Package (CTPP). Because definitions and methodologies vary among sources, employment numbers published in other reports may differ from the BEA employment numbers in this data bulletin. For a more detailed discussion of employment data

sources, please refer to DVRPC’s Data Reference Guide No. 5, “Sources of Employment Statistics”.

Figure 1 and Table 1 identify the Total Employment Trends from 1970-1997 for the PA 5-county region, the NJ 4-county region, the DVRPC 9-county region, the 14-county CMSA region and the DVRPC 28-county data service region.

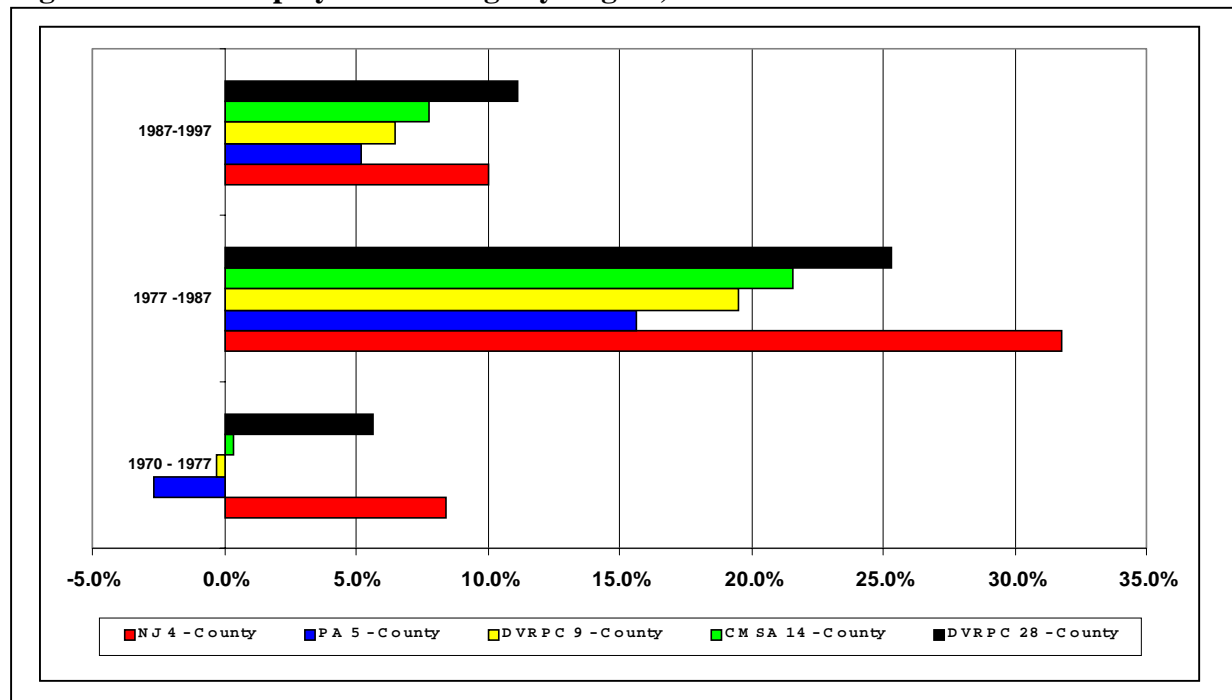

Map 1 illustrates the Percent Change in Total Employment that occurred in each of the 28 counties from 1970-1997 while Map 2 shows each county’s contribution to regional employment change over the same time period.

The employment data in Table 2 are divided by type and industry for each of the 28 counties and by region. Type of employment includes employment for wage and salary workers and for individual proprietors. Proprietors are further categorized into farm and non-farm.

Classification by industry includes both farm and non-farm employment. Non-farm employment is divided into private sector employment (agriculture services, mining, construction, manufacturing, transportation and public utilities, wholesale trade, retail trade, finance and insurance and real estate, and services), and government employment. Government employment includes federal civilian, military and state and local. Note that throughout this bulletin subsets of larger aggregations are indented.

Additional data regarding employment, population and housing can be obtained from the Delaware Valley Regional Planning Commission at [www.dvrpc.org](http://www.dvrpc.org) or (215) 592-1800.
