About Today's Speakers / Panelists

Michael S. Scott, Ph.D., GISP

Dr. Michael Scott is the Interim Dean of the Henson School of Science and Technology, a professor in the Department of Geography and Geosciences, and the Director of the Eastern Shore Regional GIS Cooperative (ESRGC) at Salisbury University. He has over 20 years of experience in consulting, managing, and educating young people about geographic information systems (GIS), local government applications of GIS, environmental hazards, and cartographic visualization. He launched the ESRGC in 2004 to combine and leverage the collective funding of local governments, the commitment of Salisbury University to serve the citizens of the Eastern Shore of Maryland, and the technical skills of SU's students and faculty in order to make state-of-the-art GIS technology and services to the surrounding local governments. ✉ msscott@salisbury.edu   ☎ 410-543-6424

Elkins Green

Mr. Green is a 35 plus year NJDOT employee, currently a member of the Department's Senior Executive Service as Director of the Division of Environmental Resource, where his Division ensures Department actions & actives comply with applicable federal & state requirements, and is the central point of contact for environmental policy.   New to the Division's responsibilities include assisting Operations in Storm Water Asset Management and developing a resiliency strategy for the Department. Elkins holds a Bachelors of Arts Degree and Master Degree in Urban Planning from Rutgers University, and is a Certified Public Manager. A true team player Elkins values the importance of team work and building lasting relationships with his coworkers, as well as striving to make a positive difference in the functions of the Department. Professing to be a "master barbecuer", Elkins enjoys freshwater fishing, watching football (Go Cowboys) and enjoying time with family.
