5a. Bucks County Electric Vehicle Charging Program (MPMS #82028), Bucks County – Add New Project to the TIP

From: Jerrett Johnson

Zip Code: 19139

Date Received: 7/14/25

Comment/Question: I would like to congratulate Bucks County on the installation of more charging stations. Who will be the provider or providers that will install these charging stations (Blink, ChargePoint Electric America or Flo) and is there a plan to install charging stations Philadelphia and in other counties in the region if they haven't already been installed.

Response: Your comment was shared with the DVRPC Board, DVRPC's Office of Capital Programs, and Bucks County.

Thank you for supporting the Bucks County TIP amendment and Bucks County's desire to add EV charging stations to county facilities. At this time Bucks County does not know who the providers will be as we have not reached that stage of the project. We cannot speak to what Philadelphia or the other counties are doing with EV charging stations and would encourage you to reach out to them directly.

From DVRPC: The City of Philadelphia recently added a similar project to the TIP in January 2025. DVRPC staff are actively working with the suburban counties to add similar projects to the PA TIP in the future.

Thanks again for engaging in the region's development.
