18 Section 72. Miscellaneous.

19 (Reserved).

20 Section 73. Limitation on expenditure of funds.

21 The following shall apply:

22 (1) Any money derived from the incurring of debt shall  
23 be used solely for effecting the rehabilitation, replacement  
24 or removal of bridges located on State highways. All other  
25 bridge rehabilitation, replacement or removal shall be  
26 financed from current revenue.

27 (2) Notwithstanding any law to the contrary, the  
28 projects itemized in the act of December 8, 1982 (P.L.848,  
29 No.235), known as the Highway-Railroad and Highway Bridge  
30 Capital Budget Act for 1982-1983, may be financed from

1 current revenue.

2 Section 74. Debt authorization.

3 The Governor, Auditor General and State Treasurer are hereby  
4 authorized and directed to borrow from time to time, in addition  
5 to any authorization heretofore or hereafter enacted, on the  
6 credit of the Commonwealth, subject to the limitations provided  
7 in the current capital budget, money not exceeding in the  
8 aggregate the sum of ~~\$6,367,572,879~~ \$6,370,183,779 as may be <--  
9 found necessary to carry out the acquisition and construction of  
10 the State projects specifically itemized in this act.

11 Section 75. Issue of bonds.

12 The indebtedness authorized in this act shall be incurred  
13 from time to time and shall be evidenced by one or more series  
14 of general obligation bonds of the Commonwealth in such  
15 aggregate principal amount for each series as the Governor,  
16 Auditor General and State Treasurer shall determine, but the  
17 latest stated maturity date shall not exceed 30 years from the  
18 date of the bond first issued for each series.

19 Section 76. Estimated useful life of projects.

20 The General Assembly states the estimated useful life of the  
21 projects itemized in this act as 30 years.

22 Section 77. Appropriation.

23 The net proceeds of the sale of the obligations authorized in  
24 this act are hereby appropriated from the Capital Facilities  
25 Fund to the department in the maximum amount of ~~\$6,367,572,879~~ <--  
26 \$6,370,183,779 to be used by it exclusively to defray the <--  
27 financial costs of the State projects specifically itemized in  
28 this capital budget. After reserving or paying the expenses of  
29 the sale of the obligation, the State Treasurer shall pay out to  
30 the department the money as required and certified by it to be

1 legally due and payable.

2 Section 78. Federal funds.

3 In addition to those funds appropriated in section 77, all  
4 money received from the Federal Government for the public  
5 improvement projects specifically itemized in this act is also  
6 hereby appropriated for those projects.

7 Section 79. Allocation of funds.

8 (a) General rule.--Whenever the department or the Department  
9 of Conservation and Natural Resources determines that the full  
10 estimated financial costs of the projects itemized in this act  
11 are not necessary for the proper design, acquisition or  
12 construction of such projects, the excess funds no longer  
13 required may be allocated by the department or the Department of  
14 Conservation and Natural Resources to increase the estimated  
15 costs of any one or more of the projects specifically itemized  
16 in a capital budget.

17 (b) Reimbursement of municipal expenditures.--Money raised  
18 or expended by municipalities after the effective date of this  
19 act, in anticipation of receipt of funds authorized for projects  
20 itemized by this act, may be reimbursable to those  
21 municipalities.

22 Section 80. Policy on jobs and materials.

23 (a) Jobs.--It is the declared policy of the Commonwealth  
24 that the construction projects authorized in this act be used,  
25 to the greatest extent possible, to provide for the creation of  
26 jobs and the rehiring of the unemployed in this Commonwealth. In  
27 order to reach this goal, firms with Commonwealth-based  
28 facilities shall be actively solicited to make bids on contracts  
29 to furnish products and materials, including, but not limited  
30 to, steel and steel products, to be used in these projects.

1 (b) Materials.--Every contract document entered into to  
2 undertake a project contained in this act shall provide that any  
3 steel or other products to be used or supplied in the  
4 performance of this contract shall be required to be  
5 manufactured by plants in the United States unless the secretary  
6 determines, on a contract by contract basis, that certain  
7 required products are not produced in the United States in  
8 sufficient quantities to meet the requirements of the contract.  
9 Such a determination and the reasons therefor shall be  
10 transmitted to the Legislative Reference Bureau for publication  
11 in the Pennsylvania Bulletin. Decisions made under this  
12 subsection shall not be inconsistent with the general provisions  
13 of the act of March 3, 1978 (P.L.6, No.3), known as the Steel  
14 Products Procurement Act.

15 (c) Minorities and women.--It is also the declared policy of  
16 the Commonwealth to require and encourage substantial  
17 participation by minorities and women in the construction  
18 projects authorized by this act.

19 Section 81. Payment of capital debt service.

20 The repayment of any debt incurred pursuant to this act shall  
21 be made from the account and such repayment shall have first  
22 claim on the revenues of the account.

23 Section 82. Authorization and debt cumulation.

24 The additional authorization and debt allowance provided for  
25 in this act shall be added to the total authorizations and debt  
26 incurred pursuant to the act of December 8, 1982 (P.L.848,  
27 No.235), known as the Highway-Railroad and Highway Bridge  
28 Capital Budget Act for 1982-1983, as amended and supplemented.

29 Section 83. Editorial changes.

30 In editing and preparing this act for printing following the

1 final enactment, the Legislative Reference Bureau shall insert  
2 or revise letters or numbers for projects where the letters or  
3 numbers are missing or require revision. The bureau shall also  
4 revise the total monetary amounts for the total authorization,  
5 debt authorization, appropriations and departmental totals as  
6 necessary to agree with the total monetary amounts of the  
7 projects.

8 Section 84. Effective date.

9 This act shall take effect immediately.
