CMP Subcorridor(s): 9A

This project covers the operating subsidies for the Pottstown Urban Transit System. Funds in this project may also be used for capital projects. Pottstown uses the majority of the annual appropriation for operating, and a small portion for equipment purchases and capital projects as required. Section 5340 funds are included with Section 5307 funds. Capital projects planned in FY23-26 include (also see MPMS# 95739): FY 22 Rolling stock; FY23 Shelter replacement \$230,000; FY24 Shelter amenities \$10,000; FY25 Lift replacement \$60,000.

Pottstown Area Rapid Transit (PART) is a small urban transit system operating five bus routes and ADA paratransit service in the Borough of Pottstown, Upper, Lower, and West Pottsgrove Townships, Limerick Township, and North Coventry Township in both Chester and Montgomery Counties. PART receives an annual apportionment of Federal Section 5307 Funds for operating purposes. PART, by request to FTA, may program apportioned funds for capital purposes.

CMP:

This project is for the procurement of a Pottstown Area Rapid Transit (PART) Service Vehicle. This vehicle will be equipped with a mechanics service body, air compressor, welder, generator, and snow plow. This will allow the mechanics to address smaller issues on the road rather than requiring the buses to return to the garage.

CMP:

PART Bus Stop Amenities & Walkshed Improvements. These funds will be flexed to PART and will help them to implement recommendations identified in Enhancing PART Bus Stops in the Pottstown Area plan( Feb. 2023). This study is intended as a guide to help PART apply best practices in bus stop design and access across their system. Recommended improvements include standard bus stop signs, clear and accessible passenger loading areas, lighting, easy-to-find schedules and route information, and shelters. PART will focus on bus shelters, lighting, pedestrian access improvements, and travel information as part of the project.
